

Dear ESC-Guys,

provided that the incidence value remains <100 on the day of the race, the first race of the year can take place, but subject to the following conditions:

- Only online preregistered drivers with completely done payment (<https://www.eurochallenge.de/>)
- No support persons
- Only with a negative rapid test upon arrival on the premises (free of charge) *
- No registration or payment on the site

Please ensure to use correct data especially email address. You will get documents by email which you have to sign and bring.

Now something in prose: as of May 27, 2021, no visitors are admitted according to the Corona regulation, which is why we ask you to support each other as best you can - of course with due distance. We are also happy to accept PCR tests, the results of which must not be older than 24 hours. * Vaccinated and convalescent persons are exempt from the obligation to test (do not forget proof!).

The current conditions of the RKI

<https://www.bundesgesundheitsministerium.de/service/gesetze-und-verordnung/guv-19-lp/coronaeinreisev.html> or <https://www.einreiseanmeldung.de/#/>. apply to those arriving from abroad or returning.

In closed rooms (toilets / race management) it is compulsory to wear a mask. The showers remain closed.

The catering is open, so the physical well-being is taken care of. The relevant BaWü regulations must be observed.

If the race has to be canceled at short notice due to a pandemic, the entry fee will be refunded.

If someone tests positive for C19 on site, a refund is not possible.
